The Demo version has all the features of the Full version except for the following:

- Full function
- 30 times' usage limitation

Getting Started

The Frequently Asked Questions page for MobFinance may contain more recent information and trouble shooting tips, see http://www.imoblife.com/support.html.

Installing MobFinance

There are 2 easy ways to install MobFinance. If you received MobFinance software package, you can install it with Nokia PC Suite, which can be downloaded at http://europe.nokia.com/A4144903. The instructions regarding installing procedures can be found in Nokia PC Suite's User Guide. This will usually require a PC and a USB data cable (or Bluetooth) between the PC and your Nokia device.

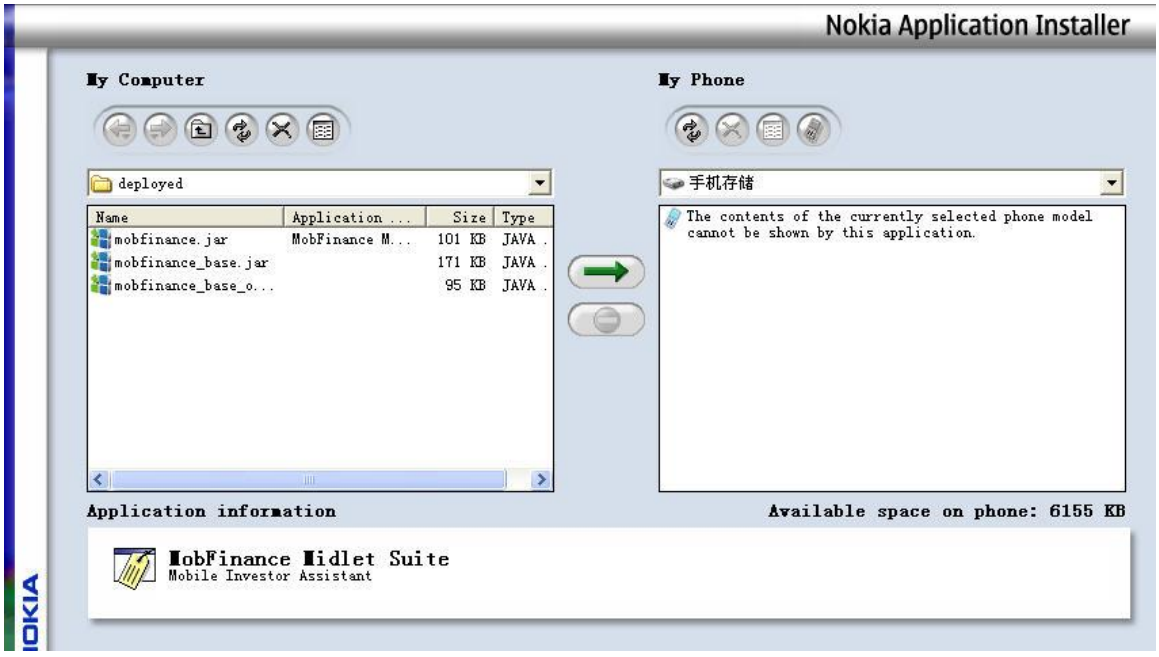
Another alternative is to directly upload "mobfinance.jar" onto your mobile device and click it to start the installation process.

With Nokia PC Suite

The procedures to install MobFinance with Nokia PC Suite are:

- Start Nokia PC Suite Desktop Manager.
- Connect your Nokia device to your PC or laptop. This is usually done by connecting USB cable or through Bluetooth (if supported.)
- Run Nokia PC Suite.

- Select "Install application".



• Select "mobfinance.jar" and click " " to install MobFinance

Running MobFinance

Select MobFinance icon in the main menu to start MobFinance.

Main Window

My Portfolios Update & Management

By selecting "My Portfolios" command in the main menu, you will enter the portfolio window. Here you can add, delete, and update your portfolios categories, symbols and shares at any time. And by simply clicking on "Update" or "Update All" command, a real-time quote details will be retrieved and sent directly to your phone's screen.
The last category is “Watch” category, which is auto-generated by MobFinance. You can put your favorite symbols into it. MobFinance will not calculate the market value for “Watch” category.

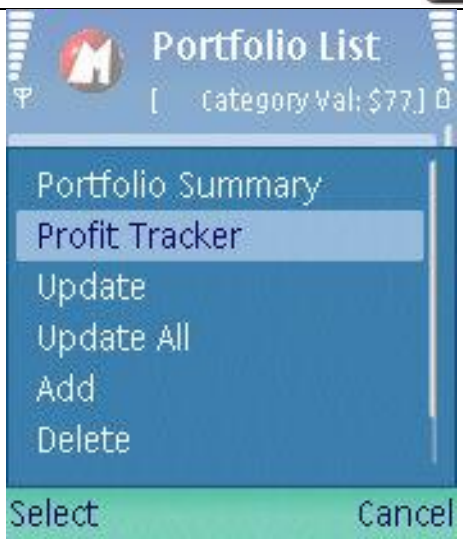
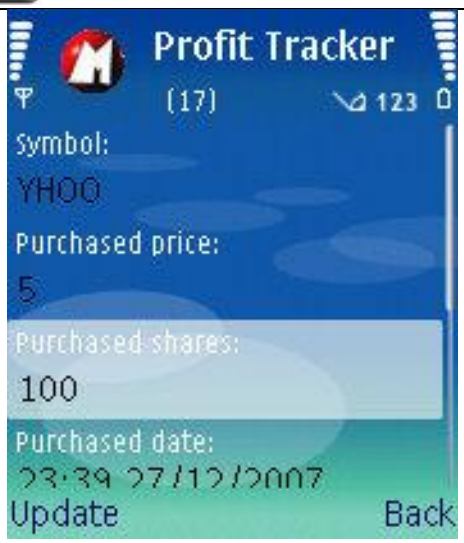
Quick Portfolio Summary & Profit Tracker

In the portfolio window, you can take a quick view of the portfolio summary by clicking "Portfolio Summary" command. The detailed information for the selected category will jump out onto your screen, including Category Name, Stocks held, Portfolio Market Value, and Portfolio Profit, etc.
You can also click "Portfolio Manager" command to manage each portfolio efficiently. Here you can edit "Purchased Price", "Purchased Shares", and "Purchased date" for each portfolio. By clicking "Update" command, all changes will be updated immediately into the local database. Each portfolio's current profit will be re-calculated at the same time.



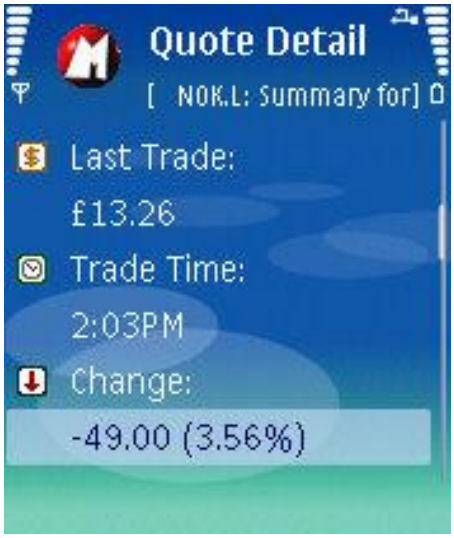


Integrated Finance News

MobFinance has fully integrated iMobLife's Mobile RSS Reader (***RssNews!***) to enable an investor to browse latest market news. By selecting "Finance Headline" in the main menu, you can read the most up-to-date finance news through news sources like Business Week, Yahoo Finance, Reuters Business, etc. You can also add, edit and delete news feeds to customize your own news sources.

Real-time Quote Search & Save

You can input any symbols into the input field and select "Quote" command in the menu. MobFinance will retrieve the most up-to-date quote information and send it directly to your mobile phone. The detailed stock info are comprised of Last Trade, Trade Time, Change, Day's Range, 52wk Range, Volume Market Cap, EPS, Div & Yield and more... Anytime you find the quote is interesting to you, you can select "Save" to save the full detailed quote info into local store for a later offline review.



Real-time Quote Headlines View

When you look into a quote's detailed info, you will probably want to have a look at the quote's most up-to-date headlines. Then all you have to do is to select "Headlines" command in the menu list, the related headlines for the symbol will be sent to your phone's screen in a few seconds. Anytime you find the headline news is interesting to you, you can select "Read" to open original headline news links in your handset's default web browser.

Real-time Chart View & Save

When you look into a quote's detailed info, you will probably want to have a look at the quote's intraday/weekly/yearly charts. Then all you have to do is to select "Daily Chart", "5 Days Chart" or "1 Year Chart", the related chart will be sent to your phone's screen in a few seconds. Anytime you find the chart is interesting to you, you can select "Save" to save the full chart into local store for a later offline review.

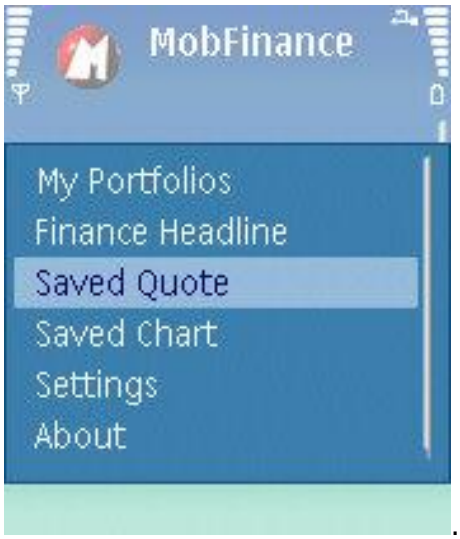
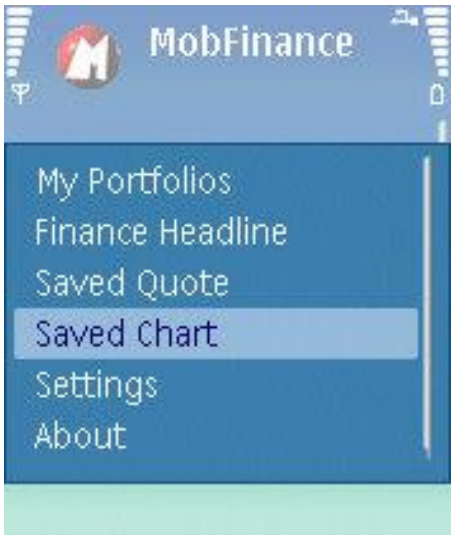
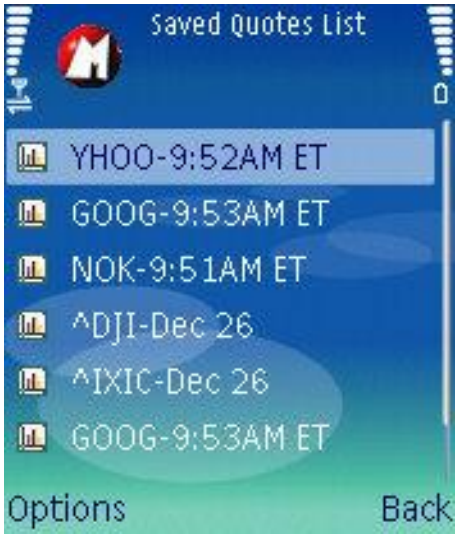
Quote & Chart Info for Offline View

By selecting "Saved Quote" and "Saved Chart" commands in the main menu, you can enter local quote store and chart store respectively. There you can have an offline review of your saved quotes or charts at any time.



.





Settings for Display, Language and WAP Proxy

By selecting "setting" command in the main menu, you can enter the settings window. Here you can select your preferred language and set your specific WAP proxy if there exists one. Currently five languages are supported by MobFinance. They are English, German, Italian, French and Spanish. You can also select to display portfolio lists and quote details in one line or two lines according to the screen size of your mobile phone.
